Hamlet Holds out for the People.

Hooray for Burksdale Hamlett, Supt. of Public Instruction, who refuses to sign a contract for books that the Commission has udopted at a higher price that the same books are sold to other States. It occurs to us that all of this "fear of the monitain Subook companies" is being slightly reflected on the Commission and Mr. Handett evidently thinks Mt. Sterling, Ky.

Two years ago the Legislature of Kentucky passed the present trimary law which became effective in June of 1912. Harry Shoberth, of Versailles, in the early spring of that year, annonneed for Congress against Cantrill. Mr. Shoberth took sick and became unable to make a canvass of the district in the spring. Mr. Cantrill controlled the committee in the 7th district at that time, thus he, taking advantage of his opponent's illness and the free primary law, which Became ell'ective in June, had a primary called for a time before this law became effective. This shut out his opposition. It also cut out the counties of Powell, Lee, Estill and Clark (which came Into the district later in the year) from having a say-so in the nommation of the man they must vote for for Congress.

In these acts Cantrill took advantage of his opponent while he was sick and unable to defend himself and he disfranchised evcry Democrat in the four counties of Powell, Lee, Estill and these facts he says he has "undertaken at all times to play the game of politics fairly, honestly and decently."

The report of Insurance Commissioner M. C. Clay shows that there were \$440,000,000.00 in risks written in Kentucky last year. The total assessment of edl property of the State is but \$862,000,000.00. This embraces all the real estate, live stock, etc. Comparing these two reports we tind that the risks written are over half as much as all the taxalile property of the State. We must then conclude that msurance, while supposed to be writneu ou two-thirds its real value. is written at about 150 per cent. ets actual value, and the taxable property is assessed at about 50 per cent, of its real value. Such unscrupulous handling of imporunit matters proves that there 18 more than one Milton II. Smith in Kentucky.

Mr. Cantrill says: "In former campaigns I stond before the people of this district and swallowed the abuse and slander and libel heaped upon me."

Why didn't Mr. Cantrill sue those who so slandered him as he says. He was invited to do so and he was even dared to do so. lle evidently knew that what was charged against him would be proved in open court if he brought the suit, and he knew he could put over a charge better than court records.

The State Board of Valuation and Assessment has fixed the

ern Railroad at \$1,890,000, which is about 50 per cent, of the gost of the extension only. Firmers 25 per cent, by the Board that fixes the raiirond valuations low. And yet they say we have unjust tax laws, because the Constitution says all property must be equally taxed. They want the property classified so the railroads will have to pay less and the farmers more. Still thou-sands of farmers voted for the amendment before and will do it again next year.

"I am opposed to disfranchising the people of the State of Kentucky by permitting the oth-80 er States of the nation by constitutional amendment voting up-Southern Agriculturist 80 on Kentucky a policy our people do not desire."-Cantrill.

Mr. Cantrill may now talk that he opposes the disfranchising of the people all he pleases, but he disfranchised the Democrats of Powell, Estill, Lee and Clark counties two years ago, and would | do it ngain if he could. It 'nltogether depends on how the voters are going to vote as to whether Mr. Cantrill believes in disfran chising or note

Besides, the Hobson amendment, which produced the above 1 statement from Mr. Cantrill, bas the sole purpose of giving the people an opportunity to vote on the most important question of the day. He doesn't want the the day. He doesn't want the people to have a vote, and this is

value of the Lexington & East- | what we call disfranchising the people.

Don't fail to see the Farm Drain Tile

Make Your Wet Land Productive By the use of drain tile you can turn that low, wet, useless, swancpy field into the most productive epot on your farm. Good tile, properly placed, not only carries off surplus water, it admits air to the soll and makes it easy to work. It improves any soil. The increase in the value of the land is many times the cost of the tile. The first year's crap from tiled hand pays for it. Any body can do the work successfully.
